Assistant Commissioner for Patents  
PO Box 1450  
Alexandria VA 22313-1450

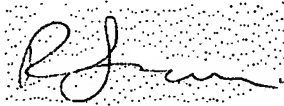

Sir:

Applicant hereby respectfully requests the current status of the above "special status" application, having submitted a supplemental ammendment in response to the April 4, 2005 advisory action, which was received by the office on April 15, 2005.

The above supplemental ammendment was based on verbal and email communications and negotiations with the examiner. At the time the applicant had believed an agreement had been reached with the examiner on necessary changes to the claims to bring the application into allowance. Because of the special status of this application the applicant believes that because of the agreement with the examiner and the significant time that has elapsed a notice of allowance should have been issued by now.

During discussions the examiner mentioned that he had been docketed another application (09/704,888 assigned to Sunrise Telecom) of which I am also the named inventor. If this application is causing a delay in the prosecution of the current application, the applicant hereby requests details of the nature of this delay and how the other invention is impacting this delay.

Very Respectfully

Applicant:

I hereby certify that this correspondence is being transmitted by facsimile to the United States Patent and Trademark Office on the date shown below.

September 6, 2005
